

WE SERVE VETERANS

and their families at more than 30 locations in 14 mostly rural communities in California, Arizona and Nevada. With a primary focus on housing, mental health, case management and employment services, we take a comprehensive approach to addressing the individual needs of each veteran, and we pride ourselves on helping veterans help themselves. Founded in 1972 by a group of Vietnam veterans, we have 48 years of experience and expertise in meeting the needs of the veteran community.

Through our subsidiary Veterans Housing Development Corporation, we also develop affordable housing specifically for veterans and their families. VHDC's focus is building homes and communities for those who served our country, providing them with a stable and secure place where, with our help, they can rebuild their lives and recapture the sense of belonging and purpose they may have lost somewhere along the way.

Our Services

-  Transitional housing
-  Permanent supportive housing
-  Homelessness prevention
-  Mental health counseling
-  Case management
-  Mobile service units
-  Employment services
-  Art therapy

Our Values

-  Community-focused
-  Active
-  Inclusive
-  Human
-  Nonpartisan

“The people at Nation’s Finest love what they do for veterans. I was homeless when I came to Santa Cruz. A few weeks later, a case manager helped me get my first apartment – and I haven’t looked back.”

G. Phlint
US Army veteran

We Serve Over 3,500 Veterans and Veteran Families Every Year at:

- 14 Drop-in Centers** staffed by case managers, employment specialists and other professionals.
- 4 Behavioral Health Centers**, in-patient residential facilities offering from 30 days to six months of treatment for substance abuse and issues such as PTSD, moral injury, TBI, MST, depression and anxiety.
- 3 Transitional Homes**, including one specifically for female veterans and their children, where homeless veterans with mental health disorders can stay for up to two years and receive a range of clinical services as well as employment and training programs, legal aid and other support.
- 2 Sober Living Homes**, shared living environments where the veterans handle daily chores, attend house meetings, work on their problem-solving skills and agree to live a clean and sober lifestyle and submit to random drug testing.
- 3 Mobile Support Units**, RVs outfitted as mobile offices to provide services to veterans living in rural areas that are difficult to reach because of long distances from brick and mortar service centers.
- 185 units of Permanent Supportive Housing**, with additional projects underway.

OUR MISSION

**At Nation's Finest,
our mission is to support
America's military veterans
and their families with
a comprehensive approach
to housing, health and
employment that helps them
achieve self-sufficiency
and reach their full potential.**

NATION'S FINEST

GUIDING VETERANS HOME
SINCE 1972

How Your Donations Help

We work hard every day to serve those who served our country. In doing so, we save lives and turn others around. But our work wouldn't be possible without the generous support we receive from the community—financial as well as volunteer hours, donated goods and helping us raise awareness about the unique needs of veterans and their families.

- \$5 feeds a veteran for a day (3 meals) in one of our residential facilities
- \$25 buys a month's worth of coffee for the veterans in one of our residential facilities
- \$50 pays for an hour of counseling for one of our veterans
- \$100 pays for one night of sleep in a warm, safe bed for a homeless veteran
